## Cuchillas Woodur 8000 - 9000

Cuchillas fabricadas para adaptarse a todos los portacuchillas existentes en el mercado. Herramienta compuesta de una base de acero, una placa soldada de MD. Nos permite trabajar todo tipo de materiales con seguridad y con una inmejorable calidad, incluidos los materiales como el DM, compactos y aglomerados. Hay una amplia gama de perfiles estándar, que se presentan en este catálogo, pero también damos la posibilidad de hacer cualquier perfil especial que se necesite, solo necesitaremos que nos faciliten un plano del perfil para su fabricación.
